

PVXp™ Sub

OVERVIEW

Peavey Electronics® set the standard for affordable, feature-packed powered P.A. solutions more than four decades ago. The new Peavey PVX™ Series of active and passive loudspeakers are the culmination of decades of R&D and experience building the best portable, all-in-one audio solutions--bringing legendary Peavey performance and reliability to audio pros and musicians of all levels.

Continuing the PVX™ Series, the PVXp Sub from Peavey features an ultra-reliable power section that provides a total of 800 watts of peak available power with DDT™ compression. This powered enclosure also features a 15" heavy-duty woofer with a 3" voice coil. The PVXp Sub provides a balanced input via a combination jack that accepts balanced TRS 1/4" input as well as a balanced XLR input. There are two balanced thru high pass XLR outputs, and a Full-Range XLR output. There is an adjustable Level control, as well as a combination LED indicator, that illuminates when power is on and when the "soft-limiting" DDT circuit is activated.

Peavey PVXp Sub is housed in a durable enclosure that includes a pole mount for additional PVX speakers, a black powder-coated steel grille provides driver protection and a clean, professional appearance.

FEATURES

- 15" heavy-duty woofer
- Internal line level low-pass/high-pass crossover network
- Fully adjustable KOSMOS® C for increased bass impact
- XLR/one quarter inch combo jack input
- Power amp has forced air cooling for maximum reliability
- Large heavy-duty locking casters
