## **Technical Data Sheet**

### **Features**

- Next-generation Dual Concentric driver featuring Omnimagnet technology
- Torus Ogive waveguide for improved broadband directivity
- 16-ohm drivers optimized for use with Lab.gruppen LUCIA amplifiers
- Yoke bracket included; optional any-angle accessory bracket available
- Weather resistant rated IP65 to EN60529 (IEC529)
- Thickened 5 mm high-temperature molded cabinets
- Custom color options

### **Applications**

- Multi-zone foreground music and paging
- Boardrooms, offices and courtrooms
- Business music systems
- · Airports, convention centres and hotels
- · Auxiliary systems in houses of worship
- Lounges and bars
- Cruise ships

### **Product description**

The Tannoy AMS 8DC is a wide bandwidth, high power-handling and high sensitivity surface mount loudspeaker designed with an aesthetic that is perfect for the architectural considerations of building design. The elegantly styled moulded enclosures blend beautifully into any décor with custom colour available on special order. Additionally the AMS 8DC has undergone the most punishing environmental testing of any product in Tannoy's history – achieving an IP65 rating, which is among the highest in the industry for outdoor use.

Behind the unobtrusive, smoothly formed, weather-resistant zinc-plated nickel grilles and higher temperature polymer mouldings lies the technical heart of Tannoy's Dual Concentric Driver's revolutionary Omnimagnet™ technology and a unique patent-pending Torus Ogive Waveguide™ device. Together these innovations provide more consistent and controlled directivity along with improved high frequency response, as well as much improved time alignment and greater coherence between the low frequency and high frequency drivers.

This latest generation of Dual Concentrics have their genesis in many of the world's high end recording studios, with that classic signature Tannoy technology being used to mix and master a rich history of recording industry classics, including The Beatles' most treasured recordings in London's Abbey Road. By extension, the new AMS models ensure that playback of recorded material sounds exactly as the engineer intended when it was mixed in the studio, making them perfect for entertainment and hospitality venues, as well as areas where true sonic clarity and reliability is required.

The AMS range utilises a 16 ohm driver, making it ideal for use in high performance low-impedance systems (with optimized performance when used in conjunction with Lab.gruppen LUCIA amplifiers). Alternatively, for constant voltage systems, Tannoy have specified as standard, high quality low-insertion loss 60 W transformers featuring switching for taps at 60 W, 30 W and 15 W, with an additional 7.5 W tap for traditional systems.

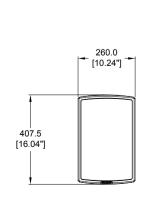

### Physical data

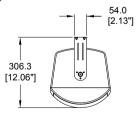

**Dimensions** (H x W x D): 409.8 x 260.0 x 306.3 mm, (16.13 x 10.24 x 12.06")

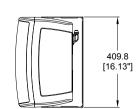

**Net Weight:** 7.82 kg (17.24 lbs)

Enclosure: ABS

Finish: Black or white

**Specifications** 

Performance AMS 8DC Frequency response (-3 dB) (1) 65 Hz - 30 kHz

Frequency range (-10 dB) (1) 53 Hz - 40 kHz

92 dB (1 W = 4 V for 16 ohms) System sensitivity (1 W @ 1m) (2)

**Nominal Coverage Angle** 90 degrees conical Power Handling (3)

90 W Average 180 W Programme

Peak 360 W

**Recommended Amplifier Power** 180 W @ 16 ohms

Nominal Impedance (Lo, Z) 16 ohms Rated maximum SPL

111 dB Average

117 dB Peak

Transformer Taps (via front rotary switch)

70 V 60 W / 30 W / 15 W / 7.5 W / OFF & Low impedance operation

100 V  $60~\text{W}\,/\,30~\text{W}\,/\,15~\text{W}\,/\,\text{OFF}$  & Low impedance operation

Dual Concentric™ point source driver

1x 200 mm (8.00") Dual Concentric™ driver, using Omnimagnet technology

44 mm (1.75") voice coil, treated multi fibre paper pulp cone Low Frequency

High Frequency 25 mm (1.00") PEI dome

Physical Enclosure

Grille Steel, plated and painted

Connectors Removable locking connector with screw terminals

Transformer setting Rotary switch

Dimensions (H x W x D) 409.8 x 260.0 x 306.3 mm (16.13 x 10.24 x 12.06") Net Weight (ea) 7.82 kg (17.24 lbs) 8.69 kg (19.16 lbs) Shipped weight

**Included Accessories** Yoke bracket

**Packed Quantity** 2 **Ordering Information Part Number** Colour 8001 7990 Black 8001 7791 White

- Average over stated bandwidth. Measured in an IEC baffle in an Anechoic Chamber
- Unweighted pink noise input, measured at 1 metre on axis
- Long term power handling capacity as defined in EIA - 426B test
