

#### Product Overview:

An ideal starter system for incorporating two-way communications, the LKS-1 ListenTALK System from Listen Technologies comes with everything you need. Each system includes four (4) ListenTALK Transceivers, one (1) Headset-2, and one (1) 4-Port USB Charger, all designed to enable convenient communication between one leader and up to three additional team members at a time. The LKS-1 is expandable to meet the growing needs of your venue, and more transceivers can be added at any time.

#### Highlights:

- Includes one headset and four individual transceivers
- Four-port USB Charger also included
- Expandable for increased demand
