(1) set of brackets and mounting hardware

Description

The Pure Resonance MC2.5B Mini Cube dual-pivoting speaker arrays feature revolutionary cube speaker technology to create an exceptionally wide soundstage in the listening area, and bring your home entertainment experience to the next level. The speakers swivel, allowing you to reflect sound off your room’s walls, as well as project it directly into the room. You’re immersed in a surround sound experience similar to what you'd get in a movie theater.
