HOLDS 2 SMALL, OR 1* MID-SIZED
MOVING HEAD FIXTURE*

PACK-MH CLOUD CASES are the perfect solution to protect and transport your moving head fixtures!

These amazingly padded carry cases can hold two (2) smaller sized fixtures, each surrounded by approximately 2.5" of soft foam padding, and separated in the middle by a padded divider. Smaller fixtures like the Flurry™ Beam, Flurry™ EXA, Stiletto™ Z3, Stimul-Eye™, Lil' G™, Switchblade Micro™, Laser Blade G™, Snake Eyes Mini™, Stiletto™ Z6, Nova™, G-Streak™, Blade™ RGBW, and Blockhead™ Z9 are good examples of smaller fixtures that nicely fit two fixtures per case.

You can also remove the padded center divider for the ability to fit one (1) medium-sized moving head like the Blockhead™ Big Eye, Blockhead II™, Stiletto Z18™, Stiletto™ I7, Stiletto™ Glo 19, G-Max™, G70™, or any similarly sized larger fixtures.

These are rugged, lightweight cases that are made from high quality 600-denier black ballistic nylon material, feature a large front zip storage pocket for all of your accessories, and also sport the ultra-cool Cloud Case™ logo.

Transport your moving head fixtures in comfort and style with PACK-MH Cloud Cases™!
