

Genesis® Series GS-102

The Genesis® Series GS-102 from Ultimate Support was thoughtfully designed to accommodate user requests for a two guitar stand that includes and includes all the great features you expect from the Genesis® line. Our patented leg-locking system adds a 4th leg to fully support both guitars while providing the necessary balance and stability. The protective padding on all four legs is designed to prevent damage to the finish on your guitar. Finally, our specially designed, adjustable neck lets you set height for cradling both guitars in an ideal position. The GS-102 brings all the features you love to the stand you've been asking for- and still folds up and locks to ensure a compact stand that's easy to take with you.

Safety Strap

This stand features safety straps that fold out of the way when not in use. When in use, safety straps fold over the guitars and secure them.

Pick Holder

The GS-102 has built in slots to hold guitar picks.

Height-Adjustable

Easily adjust and lock the height of both guitar hangers to fit electric, acoustic or electric bass guitars.

Leg Locking System

Our patented leg locking system provides security in use, and ensures compact form factor for travel. Whether the legs are extended or collapsed, simply twist and lock the mechanism to keep them held firmly in place.

Protective Padding

Protective on the legs won't harm your guitar's finish (A high quality case is recommended for long-term storage).

Portable

One of the most noticed features of the Genesis Series Guitar stands is their compact design, which allows for efficient storage and transport. This is possible because the legs fold up, not down, and lock in place.
