TSD Installation

1. Line up the TSD with the TSD-RMK top clearance holes in the space you want your TSD located.
2. Using two (2) M3 x 4mm Flat Head screws, thread through the top mounting holes into the threaded inserts on the TSD. **Note:** Do not over tighten screws or damage might occur.

Note: Use only M3 x 4mm screws. Different size screws may hit internal components causing electrical damage to the TSD.
