

DT164-W

DANTE I/O EXPANDER

The DT164-W provides 16 microphone preamps and 4 line outputs in a versatile wall-mount design for permanent installation. The reversible mounting frame allows for in-wall or on-wall mounting. Additionally, the unit can be fitted in a standard 12x12" NEMA box or equivalent, or mounted in a floor pocket for stage use. The IEC mains power inlet can be replaced with a gland module and screw terminals for fixed installation, and a DC 12V backup supply is also provided.

DT164-W offers the acclaimed Allen & Heath preamps, complete with 96kHz, 32bit converters for best-in-class sound quality over Dante, plus Primary and Secondary ports for daisy-chain or redundancy through secure EtherCon connectors.

The DT164-W is compatible with dLive and SQ.

Key Features

- 16 High end, low noise preamps
- Independent 48v indicator
- Dante 48 and 96kHz compatible
- AC or DC powered (or both as redundant)
- Fits in a standard 12" x 12" NEMA box

Benefits

- Redundant connection & PSU
- Dante Domain Manager ready
- Redundant or switched mode
- Power AC 100-240 IEC or screw terminal and / or DC 12V
- AES67 compatible
