- USB Powered, plug & play

EXPAND YOUR CREATIVITY

Inheriting the same DNA from the ultimate club experience SC6000 PRIME, the Denon DJ LC6000 PRIME is the world's most versatile DJ controller. Bringing professional club style layout, design and control to both standalone and laptop-based DJ workflows.

With the same look, design, and feel, as the flagship SC6000 Media Player, the versatile LC6000 gives DJs a professional hardware control for the second dual-layer audio output, unlocking Engine OS powered Media Players' full potential when controlling the secondary layer. Showing its true versatility, the LC6000 PRIME is the ultimate DJ Controller for compatible DJ applications, giving DJs professional hardware control in their setup.

The stunning full size 8.5" jog wheel, multi-function performance pads, 100mm dual-precision pitch fader, and navigation control grants the DJ more power and ease to be creative in the mix. Powered and activated with just a single USB connection, the LC6000 PRIME gives 'plug and play' a whole new meaning in the DJ booth. Connect one or multiple units to customize your setup and EXPAND YOUR CREATIVITY.

UNIQUE POWER OF DUAL-LAYER

Denon DJ has the only media player on the market that offers dual-layer playback with independent outputs for each layer. The LC6000 PRIME adds physical control over the second layer, making it easier than ever to perform using just one media player.

PROFESSIONAL DJ CONTROLLER

The LC6000's plug and play connectivity with DJ software, provides the ultimate club experience over one or multiple software decks, further expanding creative possibilities for the professional DJ. Compatible with Virtual DJ, Algoriddim djay Pro AI & Serato DJ Pro.

8.5" JOG WHEEL

At the heart of the LC6000 PRIME is a full size 8.5", capacitive touch jog wheel that features a high-definition central display. This color display shows track artwork or a custom DJ logo, layered with play head position and other essential performance information.

EXPAND YOUR CREATIVITY

Completing the creative toolset, the LC6000 PRIME has 8 robust multi-function performance pads offering Hot Cue, Loop, Roll, and Slicer for enhanced creativity and remixing 'on-the-fly'. Alongside this, the LC6000 has a dedicated loop section and navigation control, giving DJs complete and confident control of their performance.
