

# GYMNASIUM SOUND SYSTEM

## 8 COMMUNITY R.5 HORN-LOADED WEATHER-RESISTANT LOUDSPEAKERS WITH MICROPHONE AND BLUETOOTH

### INSIDE THE DESIGN

This sound system is perfect for large gymnasiums and features 8 Community horn-loaded loudspeakers with wideband directivity control delivering high-level speech and music reinforcement for both sides of the bleachers and the floor/court. The large LF horns create substantial pattern control, helping to reduce unwanted room reflections and improve vocal clarity in difficult acoustic environments. Also includes a Tascam media player with CD player, MP3 player, AM/FM Tuner and wireless Bluetooth streaming. The remote auxiliary AtlasIED WTSD-MIX31K mixer allows for audio devices or mics to be plugged in and controlled locally (remotely), rather than at the main unit. With the wall-mount Bluetooth mixer you can conveniently add remote access to your existing sound system and can be installed on the wall of your school gymnasium. Easily plug in a wired or wireless mic system, laptop, tablet, and other devices or sync your Bluetooth-enabled device to stream music.

### SYSTEM FEATURES

- High efficiency full-range Community loudspeakers deliver excellent vocal projection where you want it
- Good pattern control (for intelligibility) and moderate SPL in non-acoustically treated spaces
- Bluetooth media player that plays USB, SD or CD and has built-in AM/FM tuner
- Easily control remotely via in-wall Bluetooth mixer with balanced line inputs and outputs
- Includes handheld microphone with the option to plug in or use wirelessly for any occasion
