

HUB

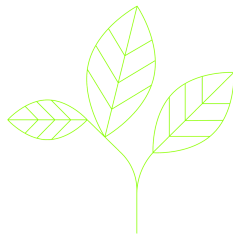

Quickstart Guide

1

Connect your Hub

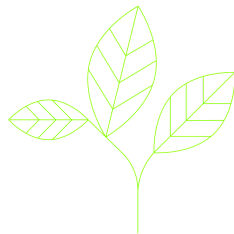

Plug-in your Hub unit and connect it to a PC

2

Find your unit

Identify the Hub unit you want on the network & select it via the Stem ecosystem platform

3

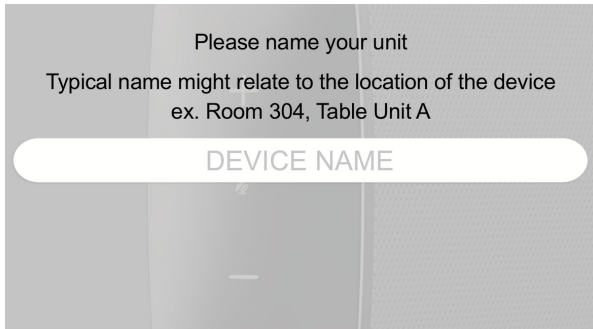

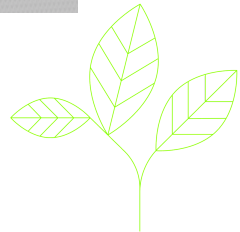

Name your unit

Give your Hub unit a name
(Ex. Medium Conference Room
-Hub 1)

Please name your unit

Typical name might relate to the location of the device
ex. Room 304, Table Unit A

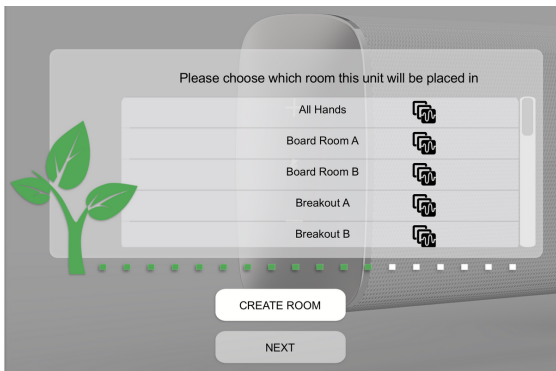

DEVICE NAME

A screenshot of a device naming interface. The background is a light gray with a subtle grid pattern. At the top, the text "Please name your unit" is centered. Below it, a smaller line of text reads "Typical name might relate to the location of the device" followed by an example "ex. Room 304, Table Unit A". In the center, there is a white rounded rectangular input field containing the placeholder text "DEVICE NAME".

4

Give it a home

Create a new room or choose which room this unit will be placed in via the Stem ecosystem platform
