

Description

Pioneering, powerful, exclusive. Three adjectives that appropriately reflect the unique design of the mini Lyzard-KZ1 speaker by K-array.

Needless to say, the loudspeaker is astoundingly small in a class of its own. In fact, the mini Lyzard measures 2 x 3.5 x 2 cm and weighs only 23 grams. However, the audio performance remains high-profile composed of a 0.5" long excursion driver contained an ultra-resistant aluminum chassis. An innovative sound experience, the high-efficiency driver, which

covers an impressively wide frequency range, has a neodymium magnet and suspensions engineered for maximum linear excursion and minimum residual transducer noise.

The mini Lyzard is designed for discreet use in a variety of intimate environments where high-quality background music is needed in a compact form, such as museums and small retail stores and comes in a variety of premium finishes.

Colors		Premium Finishes		Features		Frequent Applications	
Black		Gold		Visually discreet		Retail	Theme Parks
White		Polished		Weather resistant		Museums	Hotels & Resorts
Custom		Brushed		Lightweight		Restaurants & Cafes	Yachting
