

# MST1000

## u-mount<sup>®</sup> Microphone Stand Accessory Tray

MICROPHONE STANDS & ACCESSORIES

### FEATURES AND BENEFITS

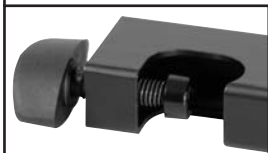

Based on the elliptical enveloping clamp design first found on the u-mount series, this mic stand accessory tray is a natural adaptation of that versatile system. A single oversized thumbscrew secures the mount in seconds to any round tubing from 1/2" - 3/4", like upper shafts of microphone stands. The accessory tray is a perfect catch-all for all of your picks, capos, tuners, slides, your set list, or a drink! We've taken the design one step further and added a threaded end to the mounting bar, which allows you to mount an additional mic... perfect for miking an acoustic instrument!

A single oversized thumbscrew secures the mount in seconds to any round hardware tubing from 11-19mm. NO tools needed!

Tray and bar can be mounted together; or remove the tray when not in use.\*

Patented elliptical enveloping clamp allows for quick and secure setups and teardowns.

5/8"-27 threaded end allows for additional microphone mounting.
