

MV5C HOME OFFICE MICROPHONE

Overview

Designed for quick and easy portable use, the MOTIV™ MV5C Home Office microphone delivers convenient, high-quality plug-and-play audio capture for Mac and PC devices. Featuring a speech enhancement mode with digital signal processing for crystal clear voice on every call, the MV5C is the perfect addition to your home office conferencing arrangement. With two configurable listening modes, the microphone offers the flexibility to choose between computer playback or microphone playback, making use of the MV5C's integrated headphone output. Tested to the same rigorous quality standards as all Shure products, the MV5C's low-profile, retro-inspired industrial design is optimized for portable and non-intrusive applications. Ships complete with a detachable desktop stand for optimal microphone placement.

Features

- Directional microphone element for increased voice isolation and minimized room reverberation
- Speech enhancement processing improves intelligibility and consistency of your voice
- Two configuration modes:
 - Default: Computer Playback via computer speakers or headphone output
 - Configurable: Microphone Playback via built-in headphone output
- Hardware control of input and output modes, headphone volume, and microphone muting
- Included anodized aluminum desktop stand with adjustable microphone angle for optimal placement
- Low-profile, non-intrusive design measures only 2.5 inches / 7 cm tall (5.5 inches / 14 cm on included stand)
- Includes one (1) Micro B-to-USB A cable and one (1) Micro B-to-USB C cable
