

Product Overview:

Our MX3-16 allows your venue to wirelessly stream up to 16 different audio sources at the same time. This level of input availability makes the MX3-16 ideal for government facilities, sports bars, convention centers — any venue where numerous options and high-quality audio performance are needed.

*Custom solutions available upon request to accommodate more channels/users, email sales@listentech.com for information.

Highlights:

- Plug & Play Installation
- Ultra-Low Latency
- Uses Existing Wireless Network

Includes:
