Screws

Speaker

Grille

Grille safety clip

Paint mask

Two-gang junction box (installer supplied)

⚠ **Warning**

SoundTube speakers must be installed by a professional audio installer/contractor. For safety and for optimum audio performance, installer must follow all directions issued by SoundTube Entertainment.

⚠ **Warning**

Do not spec or install speaker near support beam, ventilation duct or other structure that may interfere with speaker function or dispersion.
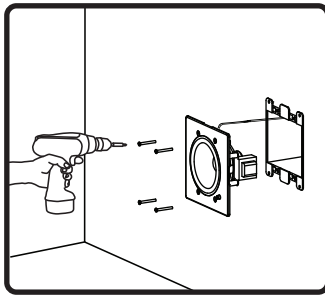

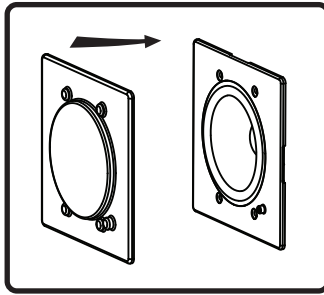

1. Unpack speaker.

2. Connect signal wires to speaker using terminal block. Connect - wire to "C". Connect + wire according to step 2a.

| Terminal	100v	70.7v	25v
C	Ground	Ground	Ground
1	X	10w	1.3w
2	10w	5w	0.7w
3	5w	2.5w	0.4w
4	2.5w	1.3w	0.2w

2a. Terminal Settings

3. Install the RF31-EZ into the installer-supplied junction box using included fasteners. Note: for best performance, make sure that junction box is well sealed.
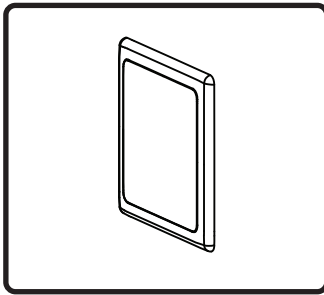

4. If space isn't yet finished, apply paint mask to protect RF31. Remove when finish work is complete.

5. Attach grille safety clip by placing the large end of the clip over snap-fit post (1), then sliding clip until small end snaps into place around post (2).

6. Align tabs on snap-fit grille with slots in baffle, gently press grille into place.

7. Done!
