

STADIUM SOUND SYSTEM

2 ATLAS STADIUM SPEAKERS, WIRELESS
BLUETOOTH MIXER AND MICROPHONES

INSIDE THE DESIGN

This outdoor stadium sound system with Atlas stadium speakers delivers consistent high-performance sound ideal for play-by-play announcements and paging. This stadium sound system design includes two Atlas stadium horns with wide coverage that can be mounted to the press box or on a pole. The Alesis wireless Bluetooth mixer allows you to play high-quality music from any Bluetooth-enabled device. Also included is a frequency agile wireless handheld microphone with 300' range for the field and a desktop microphone package for the press box. The rolling equipment rack allows you to easily store your stadium equipment away when not in use. Gone are the days of incomprehensible speech and wimpy music systems, the spectators and players will truly be impressed with this amazing sounding high-performance stadium speaker system for years to come.
