## u-mount Tablet Mounting System

u-mount UNIVERSAL SYSTEM

### FEATURES AND BENEFITS

The On-Stage u-mount Tablet Mounting System is the new way for musicians and artists to utilize and case their Apple® iPads®. Performers task iPads® in stunningly creative ways every day. They become set lists, sheet music, lighting controllers, mixing boards, playback devices, lyric sheets, intercoms, even instruments themselves.

Every corner of the performing arts has embraced the tablet computer, so the On-Stage u-mount System is specifically designed to meet the needs of live performers, studio musicians, and production engineers. It seamlessly integrates the iPad with their existing microphone stands, instrument hardware, and other gear.

Includes: (1) Tablet Holder & (1) Stand Attachment Bar

The steel 360° ball joint joins the case and boom arm together allowing tilt and rotational adjustment.

Leather-like case holds an iPad 1. An included sleeve insert accommodates the slimmer iPad 2, 3 or 4.

Aluminum u-mount bar with solid steel ball joint attachment.

With u-mount, the mount bar and case are one in the same! The case is designed to hold and protect all three generations of Apple® iPad® without hindering access or Wi-Fi reception. Designed with musicians in mind, the system mounts to mic stands and other stage gear.

*Works with either of these two new stands!*

#### TS9901
