

## JS-LPT400

Aluminum Double-tier, Multi-purpose Laptop/DJ Stand

### Save Space – Make Better Performances!

Elevate your laptop and DJ instruments with the JS-LPT400 from JamStands® by Ultimate Support®! Stack three levels worth of gear in the space of one with two sturdy tiers and special wire frame support legs that easily slide under a mixer, turntable, or other standard equipment. Not only will you save space, but you'll have all your instruments within reach making your performances the best they can be!

### Multi-purpose Laptop Stand

The JS-LPT400 is the perfect solution for DJs and their laptops, but it's also a great option when you need a portable, sturdy stand for elevating a lighting controller, small mixer, CD player, multi-track recorder, and other small electronics!

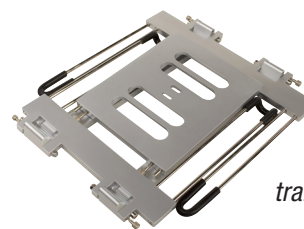

### Second Platform for Additional Gear

The second tier is the perfect place to hold audio interfaces, hard drives, USB hubs, MP3 players, and other accessories. It's vented, height adjustable and easy to remove if you choose not to use it.
