

PSA15S

1 x 15-INCH POWERED SUBWOOFER

Overview

The Paraline compact line array series is a premium range of speakers with integrated power amplifiers. Easy to transport and set up, the enclosures can be used in ground stack or flown configurations. All next-generation Paraline models offer essential features and high output, and are IP54 rated for outdoor use.

The new PSA15S subwoofer offers 3000 watts of peak power, a 15" neodymium woofer, and integrated rigging hardware. It is designed to perfectly complement the PSA26 full-range enclosure, but can be used with any top boxes for powerful bass reinforcement.

It features onboard limiting, powerCON® connectors for power input and pass-through, eyebolts for hanging, and a 35 mm (1 3/8") stand adapter for use as a base with the Yorkville SW-TUBEHD pole.
