1. GETTING STARTED

What's In The Box?

- 1 x Pipeline™ Twin
- This Lovely User Manual

Getting It Out Of The Box

Thank you for selecting the Pipeline™ Twin! This unit is a DMX distributor, signal amplifier, and isolator which allows you to split a DMX signal into 4 separate electronically isolated outputs. It also will boost your DMX signal for any extensive cable runs between DMX lighting fixtures.

Now that you've got your Pipeline™ Twin (*or hopefully, Twins*), you should carefully unpack the box and check the contents to ensure that all parts are present and in good condition. If anything looks as if it has been damaged in transit, notify the shipper immediately and keep the packing material for inspection. Again, please save the carton and all packing materials. If a fixture must be returned to the factory, it is important that the fixture be returned in the original factory box and packing.

Caution!

There are no user serviceable parts inside this unit. Do not open the housing or attempt any repairs yourself; doing so will void your manufacturer's 2-year limited warranty. In the unlikely event your unit may require service, please contact Blizzard Lighting at www.blizzardlighting.com/support.

Safety Guidelines

- This unit is intended for indoor use only!
- All units must be connected to circuits with suitable Earth Ground.
- To prevent risk of fire or shock, do not expose unit to rain or moisture.
- The unit must be installed in a location with adequate ventilation. Be sure no ventilation vents are blocked.
- Make sure power cord is never crimped or damaged
- There are no user serviceable parts inside.
- Never connect unit to a dimmer pack.

Getting A Hold Of Us

If something is wrong, just please visit our website and open a support ticket. We'll be happy to help, honest.
